Project goal: By continuing the implementation of the project “Culture for everyone” that was done in Croatia, achieved results and new knowledge will be presented by the association Filmaktiv in Slovenia with the project “Culture to everyone — Trbovlje, too!” developed with partners from the association Aspira from Trbovlje, Zasavje. The goal of the project is to have a positive influence on inclusive development program in culture in the region of Zasavje. The region is known for its miners, but it is also a region with a rich alternative culture and the community that is open to progressive ideas. We aim to implement this project in a way that all the good practices, experiences and the materials aimed at supporting the inclusion be presented to the workers of cultural institutions, as well as independent cultural workers and artists from the Zasavje region. We also want to encourage inclusive cultural practices in Zasavje and the networking of subjects in culture for development of new cross-border programs and cooperation. Expected results:

Increasing the capacity of cultural entities in the Zasavje municipality for inclusive culture practices through the following activities:

- analysis of the needs of cultural subjects in Zasavje
- exchange of knowledge and experiences through a study visit by representatives of the cultural and artistic scene of Zasavje in Rijeka
- creation of materials for the further development of inclusive practices in Slovenian organizations
- creation of promotional materials to encourage inclusive cultural practices
